

## INTER-STATE REUNION.

The Veterans of Kansas, Missouri and Other States Meet in Reunion at Chas. Park—Festivities in Attendance.

KANSAS CITY, Kan., Sept. 2.—Chas. park was blue with the garb of veterans of the union army yesterday who have assembled at the great inter-state reunion, and they and the great crowds of people in attendance were also somewhat blue over the weather and the absence of speakers. Nevertheless, a part of the regular programme was satisfactorily carried out and the veterans and their friends enjoyed the occasion despite the gloomy weather.

The registration books at headquarters show an enrollment of about 4,000 war veterans with from 500 to 1,000 members of the Woman's Relief corps, 1,200 Sons of Veterans and between 350 and 400 members of the military companies at Camp Logan. While a vast majority of these visitors from Missouri, Iowa, Kansas and Nebraska have registered as individuals regardless of the organizations to which they belong, yet the entertainment committee and Quartermaster Higgins have arranged the following Grand Army posts, Woman's Relief corps and Sons of Veterans having from 6 to 200 members each, to quarters in the tents in the park.

Post No. 211, Excelsior Springs, Mo.; post No. 27, Caldwell, Kan.; Louisville, Kan., post No. 75; McCook post No. 3, Iola, Kan.; Vermillion, Kan., relief corps; Thompson post No. 30, Vermillion, Kan.; Butler, Mo., post; Linwood, Kan., post No. 376; George Taylor post No. 212, colored, Mo.; Washington post No. 12, Lawrence, Kan.; Jesse H. ### ARMY RIFLE SHOOTING.

Scores in the Contest at Fort Sheridan—The Enlisted Men's Purse and the Officers' Shooting.

CHICAGO, Sept. 8.—Shooting began in earnest at the United States army national contest at Fort Sheridan yesterday. Some phenomenal work was done. Lieut. Ramsey drove seven leaden missiles, out of a possible ten, through the bull's-eye at the 800 yard range. Sergeant A. C. Austin pierced eight, out of a possible ten, at 300 yards and a score of forty-eight points with only fifty chances was made by a crack shot from the Rio Grande.

Yesterday, besides being the opening of the tournament proper, was set apart for bull's-eye firing. Two purses, four gold medals and one prize were offered. Sixty-eight competitors, including Lieut. W. D. Hotchkiss and Capt. John H. Ingraham of the Second infantry, Illinois national guards, entered the lists. Firing began early and continued incessantly till darkness intervened. Use of the 1,000 yard range which was about to begin was postponed.

In the officers' contest for the Spalding medal, the contest at the close of the 800 yards firing seemed to rest between Lieut. F. D. Ramsey, 210 points; Lieut.-Col. W. D. Hotchkiss, Second Illinois infantry, 202 points, and Lieut. W. N. Hughes, Thirteenth infantry, 198 points.

The three highest in the contest for the enlisted men's purse are: Private C. H. Clark, company E, Fourth infantry, 215 points; Private D. McKenzie, company D, Eighteenth infantry, 210 points, and Sgt. S. Kenny, company J, Eighteenth infantry, 200 points.

While it is generally accepted that the three named in each of the above contests will claim both winners, it is possible that bad luck on their part, accompanied by some phenomenal work by some one dangerously close, will change the outcome materially.

Gen. Miles was on the range during the afternoon. He occupied a seat on the grass close enough to the men firing to smell powder smoke and to congratulate them upon a lucky shot.

## THE AUSTRIAN EMBARGO.

Pressure to Compel Austria-Hungary to Raise the Discrimination Against American Pork.

WASHINGTON, Sept. 7.—Austria-Hungary must follow the example of Germany in the American pork matter. The administration will begin to bring pressure at once. The situation as regards that country is almost precisely similar to that Germany occupied. Austria-Hungary cannot afford to have her best sugar shut out, and she must let in the pork without restrictions. Within the past two or three years there has been an enormous increase in the importation of beet sugar from Austria-Hungary. In the year ended June 30, 1890, the total imports from Austria-Hungary amounted to \$7,642,297, of which only \$241,007, or a little more than 3 per cent, was credited to beet sugar; in the year ended June 30, 1890, the total imports were \$9,391,578, and of beet sugar \$1,577,244, or nearly 17 per cent. In the calendar year 1890 Austria sent beet sugar to the United States to the amount of 3,855,812 pounds, and in the last three months of that year, despite the known fact that beet sugar was to be admitted into the United States duty free after April 1, 1891, the exports from Austria amounted to \$1,751,429. Moreover, the importations of beet sugar for the last three months of 1890 were nearly double in value the total exports of the United States to Austria in the year ended June 30, 1890, which amounted to only \$945,705—considerably less than the amount of the exports from this country to Costa Rica, or Guatemala, or Nicaragua, or Peru—less than one-fourth the value of this country's exports to Venezuela, and only \$19,000 more than the total exports from the United States to San Domingo.

A dozen years ago American pork, bacon and lard had found their way into the Austrian market. In the year ended June 30, 1879, the exports of bacon, hams and salted pork from the United States to Austria-Hungary amounted to 575,926 pounds and of lard 1,022,300 pounds. In 1880 the exports increased over those of the preceding year and then came the decree of prohibition, which is still in force. In 1880 the figures were: Bacon and hams, 709,985 pounds; salted pork, 10,600 pounds; lard, 1,505,071 pounds. In 1890 not a pound of bacon, hams or pork was exported to Austria, and the exports of lard amounted to only 6,400 pounds. So far as the American hog products are concerned, the Austria-Hungary market ceased to exist more than ten years ago. More than seven-tenths of the exports to that market from the United States last year consisted of oils, as follows: Petroleum and lubricating oils, \$223,000; cotton-seed oil, \$512,000. The balance consisted of resin, \$107,000; spirits of turpentine, \$19,000; raw cotton, \$15,000, and leather, \$4,000.

### FORMALLY RECOGNIZED.

Minister Egan Instructed to Recognize the Junta Government.

SANTIAGO, Sept. 8.—The provisional government of the republic of Chile will be formally recognized by the government of the United States to-day. Minister Patrick Egan has received a cable dispatch from the state department at Washington instructing him to treat the Junta de Gobierno as the government de facto of the country. Information to this effect was unofficially conveyed to Senor Jorge Montt, president of the junta, soon after the receipt of the cable dispatch. Minister Egan will be cordially received by the junta for the news he brings if for nothing else. Members of the provisional government were much pleased at the receipt of this information, though they were not greatly surprised. They felt that as soon as the United States understood the situation here, that order had been restored throughout the country, and that the authority of the junta was universally recognized. Mr. Egan would receive the instructions which came to him yesterday.

It is the opinion here that Senor Pedro Montt, who is now in Washington as the representative of the junta, will be regularly accredited minister from Chile to the United States as soon as the matter can be reached. This, it is thought, will not be many days.

### AUSTRIAN POLAND.

Loyalty of the People to Francis Joseph and Hatred of the Czar.

LONDON, Sept. 8.—A Vienna dispatch says that the Austrian emperor is to some extent compensated for the disloyal attitude of the Bohemians by the growing devotion of the Galician Poles. The latter are even eager to see war break out in order that they may have a chance to avenge their national wrongs on Russia, which country they hold chiefly responsible for the destruction of Poland. At Cracow the people marched in the streets singing the Polish national hymn and rhymes violently abusive of Russia, and some even personally directed at the czar. The police make a pretense of interfering at times, but it is said that the feeling acts as a counterpart to the anti-Austrian agitation in Bohemia, which is attributed chiefly to Russian influences. All indications are that, in the event of a Russian invasion of Galicia, the Poles will rise as one man to battle against their hereditary enemies. The reason for Polish devotion to Austria is that nowhere has Austrian rule been more beneficent than in Austrian Poland, where it contrasts sharply with the oppression exercised by the Russians on the other side of the border.

### "Maly B."

The queer ideas the Chinese have of religion are illustrated by a story which comes from San Francisco: "Miss Mary B. was a very devout Christian. The family had in their service a Chinaman to whom they were very much attached. It was Miss Mary's pet idea to convert this Chinaman, but for a long while the Celestial was obdurate. Finally he repented, and at the earnest solicitation of Miss Mary he consented to undergo christening. Then a new difficulty arose. He said his name from henceforth should be 'Mary B.' and he would not be christened under any other name. 'But,' pleaded Miss Mary, 'John, that is a girl's name. Why not take John?' 'Mee no wantee John. Mee Maly B., or mee no Christian.' Miss Mary was at a loss what to do, but finally she had to give a reluctant consent, and her Chinese servant was christened 'Maly B.'"—Chicago Times.
